These rural lands are dedicated to agriculture and cattle ranches that become what many people have called the heart of the country. The main attraction of this area is by far the Arenal Volcano, which rises 1,633 metres above sea level showing off one of the main characteristics with its almost perfect conic shape.

Arenal Volcano: At Leisure

These days are yours to enjoy the tourist attractions (for an extra cost) around the Arenal Volcano. If you want to explore the area in a more exciting way, we recommend the Sky Tram & Sky Trek. This tour combines climbing to the top of the mountain by Sky Tram, enjoying the beautiful scenery of Arenal Lake, and making your thrilling descent through a system of ziplines. Adventure at its best!

If you prefer a quieter excursion to admire the natural beauty of the northern plains, we recommend a visit to Arenal Hanging Bridges, a collection of trails immersed in the rainforest where you will be able to walk along 16 hanging bridges. Bridges and trails were built considering all type of visitors and their security. This tour is defined by magnificent views of the impressive Arenal Volcano and you will regularly spot a variety of mammals, reptiles, amphibians, birds and insects, making it one of the most interesting visits in the area.
